SKYDECOR ACRYLIC LAMINATES FEATURES

DURABLE

Skydecor
Acrylic Laminates
exceptional features
makes them strong and
highly durable.

ANTI SCRATCH

Skydecor
Acrylic Laminates are
developed with
top tier technology.

6H Coating
makes it highly scratch
resistant.

SUPERIOR GLOSS

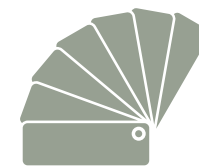

Skydecor
Acrylic Laminates are
made of

100% Pure PPMA
laminates, which gives the
surfaces a super glossy
finish & mirror like sheen
that retains its color and
brightness over the years.

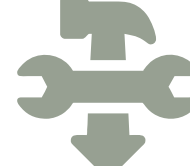

LIGHT WEIGHT

The flawless design
structure of Skydecor
Acrylic Laminates are
engineered to be
extremely light weight
and
easy to apply.

COLORS & VARIETIES

Skydecor
Acrylic Laminates retain
their color and brightness
for ages and are
available in plenty of
vibrant colors.

LOW MAINTENANCE

Skydecor
Acrylic Laminates are
easy to use with
very low maintenance.
Just a normal wipe with a
clean & wet cotton cloth
is necessary.

TERMITE PROOF

Skydecor
Acrylic Laminates are
specially treated to
ensure that they remain
termite and borer free
for a lifetime.

WATER PROOF & STAIN RESIST.

Skydecor
Acrylic Laminates
are treated with a special
coating on their surfaces
to make them
water proof.

About Us

Skydecor began its journey in the year 2016 with a goal to reach beyond the sky limits. With over 50,000 sq. meters of Infrastructure area and state of the art machinery, we aim to expand and develop at every stage. Our manufacturing units are in Greater Noida and Hapur where we manufacture PVC Laminates, Acrylic Laminates and Decorative Laminates. Our Operational Headquarters is in Noida and Experience Center in Kirti Nagar.

Boasting a legacy of a decade, Skydecor Laminates offers to revitalize the space around you. Our collections offer limitless possibilities for an interior space to look stylish and refined. From solids to textures, from naturals to eternals, our laminates come in a wide variety of designs and patterns.

As a socially and environmentally responsible company, Skydecor also prioritizes sustainability in our design practices. We strive to incorporate eco-friendly materials, energy-efficient solutions, and sustainable practices wherever possible, contributing to a greener and more sustainable future.

Our team follows a collaborative approach, working closely to ensure smooth project management, timely execution, and impeccable finishing. We believe by developing a large dealer network in India, Skydecor has left its footprints around our country. Our team works with clients to understand their vision, preferences and requirements, ensuring that each project reflects their individuality and exceeds their expectations. We pay meticulous attention to detail, incorporating the latest design trends, materials, and technologies to create inspiring and functional spaces.

Researching and developing a wide range of laminate designs with the utmost quality and at affordable prices has become our key goal for customer satisfaction. Explore Skydecor's Laminates collection to design your interiors according to your specifics.

WAYS TO KEEP SKYDECOR ACRYLIC LAMINATE NEW FOREVER ?

Follow some steps mentioned as below to maintain Skydecor Acrylic Laminates.

- To clean the surface of Acrylic Laminates do not use thinner.
- Wipe the surface gently with a non-abrasive cloth.
- Avoid the use of abrasive liquid cleansers, bleaching compounds or solution as these may damage the surface of the laminates.
- Use mild house hold glass cleaner like COLIN to remove more stubborn stains.
- You can use normal water also for cleaning.
- Do not place hot cookware directly on the Acrylic Laminate.
- Always store Acrylic Laminates at temperature below 300 Celsius.

WAYS TO PREVENT SKYDECOR ACRYLIC LAMINATES FROM COLOR FADE OR YELLOWING

- Do not expose your Acrylic Laminates furniture to direct sunlight, it may cause discolouring, fading and yellowing of the laminates.
- Don't use inferior quality chemical dipped plywood as it can react with adhesive which may cause yellow patches after the installation.
- Don't use synthetic rubber adhesive for bonding as it may lead to brown/colored patches on Acrylic Laminates.
- Don't place hot cookware directly on the Acrylic Laminates.
- Prolong exposure of Acrylic Laminate above 30-degree temperature should be avoided.

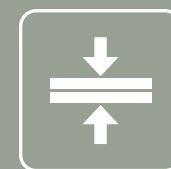

HOW TO APPLY SKYDECOR ACRYLIC LAMINATES ON INTERIORS & FURNITURES

- Use balancing sheet on backside.
- Always clean the dust particles properly from the substrate (plywood MDF, Particle Board) surface by cloth or soft brush.
- Always use good quality branded adhesive to stick Acrylic Laminate on substrate. Please don't add water in adhesive before using it.
- Spread the adhesive uniformly by brush, roller or adhesive spreader on Acrylic Laminate and base substrate (Plywood, MDF, Particle Board).
- It is necessary to remove the air between Acrylic Laminate and substrate. Please leave minimum 2mm of groove between two pieces of Acrylic Laminate.
- At the time of pressing Acrylic Laminate on base substrate (Plywood, MDF, Particle Board) always use soft pinch roller or normal pressing technique to protect surface from any damage.
- The pressing should be done from the middle of the panel and move towards to the sideline and corners of the panel.
- For better bonding of Acrylic Laminate on substrate, press it for minimum 12 to 15 hours.
- Peel off the protective film within 15 days of installation.

YOU CAN AVOID PROBLEMS LIKE AIR BUBBLE & DELAMINATION ACRYLIC LAMINATE.

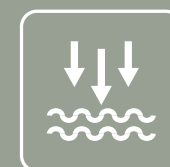

Avoid the lamination process of Acrylic Laminate under high humidity environment.

Insufficient or lack of pressing during the bonding period of Acrylic Laminate.

Don't use the water base synthetic resin adhesive any other the PEVA (Polyethylene Vinyl Acetate Co-polymer)

Don't use uneven surface substrate (Plywood, MDF, Particle Board) that may lead to air vacuum and air bubble which may appear after the installation.

Prevent the base substrate (Plywood, MDF, Particle Board) to absorb moisture. Because after few days of installation, it gradually loses moisture and this resulting in air bubble formation between Acrylic Laminate and substrate.

Take extra care during use of big size acrylic laminate for paneling because due to the bigger surface area, improper lamination may lead to air bubble formation after installation.

All designs in this catalogue can be customized in : **Flute & Soft Matt**

DISCLAIMER

- The Products are tested to be reasonably free of defects, and when used and fabricated properly they will comply with the applicable manufacturing specifications within realistic deviations. We recommend customers to inspect products properly before installing. Product's warranty in no way covers defects and non-compliance from or otherwise attributable to any other causes, including, without limitation the following :
- Improper handling / transportation / storage of Skydecor Acrylic Laminates
- Improper installation of Skydecor Acrylic Laminates
- Improper or unintended usage of Skydecor Acrylic Laminates
- Lack of or improper maintenance of Skydecor Acrylic Laminates
- Exposure to high temperatures
- Unauthorized alteration to the products
- Outdoor applications
- Do not use plywood with high moisture content
- Do not use ply with uneven surface
- Avoid using inferior quality adhesive
- Apply sufficient pressure
- Avoid pasting of sheets on the printed/branding area of the Plywood
- There will be no guarantee or exchange under any circumstances
- Color variations in products from different batches are possible
- We recommend using products from same batch to avoid color variations
- This brochure is for presentation purposes only. Actual colors may differ.
